A: Absolutely! All our **Organic Hemp Seed Oil** varieties are excellent for topical use. **Refined Hemp Seed Oil** is often preferred for skincare due to its neutral scent and lighter feel, but cold-pressed and hemp hearts oil can also offer nourishing benefits.

Q: Is Organic Hemp Seed Oil the same as CBD oil?

A: No, **Organic Hemp Seed Oil** is pressed from the seeds of the hemp plant and primarily contains essential fatty acids, vitamins, and minerals. CBD oil (cannabidiol oil) is extracted from the flowers, leaves, and stalks of the hemp plant and contains cannabinoids. They are distinct products with different primary benefits.
